# Clean Vehicles Directive

## Publication in the Official Journal of the EU

Dear Members of the EU Committee,

On 12 July 2019, the Directive (EU) 2019/1161 of the European Parliament and of the Council of 20 June 2019 amending Directive 2009/33/EC on the promotion of clean and energy-efficient road transport vehicles, commonly known as the Clean Vehicles Directive, was published in the Official Journal of the European Union.

With this, the text ([available here in all official EU languages](#)) has become EU law. It will enter into force twenty days after its publication, i.e. on 2 August 2019.

The Member States now have 24 months to transpose the Directive into national law, after which the first minimum procurement targets for clean and zero-emission vehicles will start to apply on 2 August 2021.

We remain available for questions you may have on this dossier.

Best regards,

**Thomas Avanzata**  
UITP Europe Senior Director

**Lucie Petersen**
